Chronic Disease Prevention and Management

Measure - Dimension: Effective

Indicator #1	Type	Unit / Population	Source / Period	Current Performance	Target	Target Justification	External Collaborators
Percentage of screen-eligible people who are up to date with Pap tests	O	% / Population	See Tech Specs / Q2 (covering 3 yrs of participation up to Sept 2024)	60.30	72.00	We continue to work towards our target of 72.00	Two Rivers FHT, Grandview FHT, Langs

Change Ideas

Change Idea #1   Deployment of 'bot' technology to support primary care preventative cancer screening.

Methods	Process measures	Target for process measure	Comments
Partnering with the eHealth Centre of Excellence, we will be deploying the Poppy Bot, which is a tool embedded in an EMR system to identify which patients are due for their cancer screening. We will be offering this to any primary care clinician in CND OHT who can make use of this technology.	1. Number of primary care practices using Poppy Bot 2. Number of patients identified for screening using Poppy Bot	1. 3-5 primary care practices 2. 1000 patients eligible for screening	

Measure - Dimension: Effective

Indicator #2	Type	Unit / Population	Source / Period	Current Performance	Target	Target Justification	External Collaborators
Percentage of screen-eligible people who are up to date with mammograms	O	% / Population	See Tech Specs / Q2 (covering 2 yrs of participation up to Sept 2024)	57.90	68.00	We will maintain our target from last year.	Two Rivers FHT, Grandview FHT, Langs

Measure - Dimension: Timely

Indicator #5	Type	Unit / Population	Source / Period	Current Performance	Target	Target Justification	External Collaborators
Emergency department visit as first point of contact for mental health and addictions–related care	O	% / People	See Tech Specs / Oct 2023 to Sept 2024	26.40	20.00	We continue to find ways to work on this indicator and will maintain our original target for this indicator.	Cambridge Memorial Hospital, Langs, Two Rivers FHT, Grandview FHT

Change Ideas

Change Idea #1 Participating in regional Mental Health and Addictions System Transformation Table (MHA STT).			
Methods	Process measures	Target for process measure	Comments
We will work with regional partners to align mental health and addictions initiatives to better support our patients.	1. Number of initiatives launched.	1. 5 initiatives	This work is being led by Camino Wellbeing + Mental Health, and is supported by local system partners.

Integrated Care - Transitions in Care

Measure - Dimension: Efficient

Indicator #4	Type	Unit / Population	Source / Period	Current Performance	Target	Target Justification	External Collaborators
Alternate level of care days expressed as a percentage of all inpatient days in the same period	P	% / People	See Tech Specs / Oct 2023 to Sept 2024	22.00	20.00	Work continues on this indicator and we will maintain our target of 20.00.	Cambridge Memorial Hospital, Langs, Two Rivers FHT, Grandview FHT

Change Ideas

Change Idea #1   Continue to work with regional partners to identify opportunities to support ALC initiatives in CND OHT.

Methods	Process measures	Target for process measure	Comments
Continued attendance at the Waterloo Focus Community meetings to support ALC initiatives.	Number of initiatives supported.	2 initiatives across the OHT.
