

Year-in-Review

2021-2022

CND OHT VISION

We envision a community where people access seamless and integrated services to ensure the health and wellbeing of our diverse populations.

ACHIEVEMENTS

Celebrating the launch of the following to support the next phase of CND OHT implementation!

The first CND OHT Strategic Framework

A refreshed website, including a member directory for our community

A community video to introduce who we are and what we do

“ —

By having primary care clinicians involved in the CND OHT co-design, we have been able to make considerable progress toward our goals, designing an EMR tool and doing a small test of change already in the work of early identification of frailty in our community.

– Dr. Tamara Holling
Family Physician and CND OHT Connecting Care Co-Design Older Adult Workstream Co-Chair

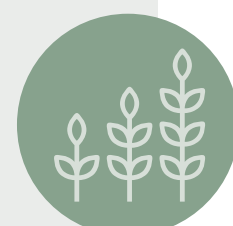

DIGITAL HEALTH

- Over \$330,000 in additional funds to support digital health enablement in Cambridge North Dumfries.
- Enhancements to virtual care through CND OHT Digital Health grant for primary care.

CONNECTING CARE

- Adoption of population-health based approach to re-design care for segmented populations.
- Implementation of tests of change of new EMR tool to support identified priority populations.

COLLABORATION

- Clinician leadership and primary care engagement in Co-Design Groups.
- Creation and implementation of a shared CND OHT COVID-19 Response Plan to respond to the needs of our communities.
- Joint Board Committee progress on governance approach.
