CND OHT Staffing Update

It is with heavy hearts that we bid farewell to Latha, Project Consultant, as she moves on to new opportunities.

We would like to express our sincere gratitude to Latha for her exceptional project management skills during her time with the CND OHT. Her dedication, hard work, and expertise have been instrumental in the successful completion of various projects.

We are truly grateful for her contributions and leadership.

We wish her all the best in her future endeavors and hope that she continues to excel in her career. Thank you, Latha, for your outstanding service and you will always be remembered for your invaluable contributions.

We would like to thank Chaylan, our first high school placement student, for her exceptional contribution during her co-op at the CND OHT.

Chaylan demonstrated an exemplary level of professionalism, adaptability, and a genuine eagerness to learn. She quickly integrated into our dynamic work environment and consistently exceeded our expectations with her level of commitment and performance.

Chaylan's dedication, enthusiasm, and hard work have truly made a remarkable impact on our team and organization as a whole.

We are pleased to announce that Dr. Cameila Singh has been appointed as the Interim Primary Care Lead for the Cambridge North Dumfries Ontario Health Team (CND OHT). Dr. Singh brings extensive experience and a deep commitment to improving healthcare in our community.

Her role will involve various responsibilities aimed at enhancing primary care collaboration and engagement within the Ontario Health Team.

Please join us in welcoming Dr. Cameila Singh to the team!

2022-2023 Year-in-Review Impact

We are proud to reflect on the past year and celebrate the many successes we have achieved in promoting community health and wellbeing. From implementing innovative programs to improving access to healthcare services, we have worked tirelessly to make a meaningful impact on the lives of those we serve.

As we look to the future, we remain committed to building on these successes and continuing to make a meaningful impact on the health and wellbeing of our communities.

IMPACT 2022-2023

The CND OHT launched our inaugural Strategic Framework

The CND OHT launched the OHT's Patient, Family and Caregiver Advisory Council

Membership of the CND OHT has expanded from 31 members to 41 members

Developed a performance monitoring framework to measure and evaluate clinical improvements in population health

CND OHT Connecting Care Co-Design Group continues to take a population-health approach to system transformation

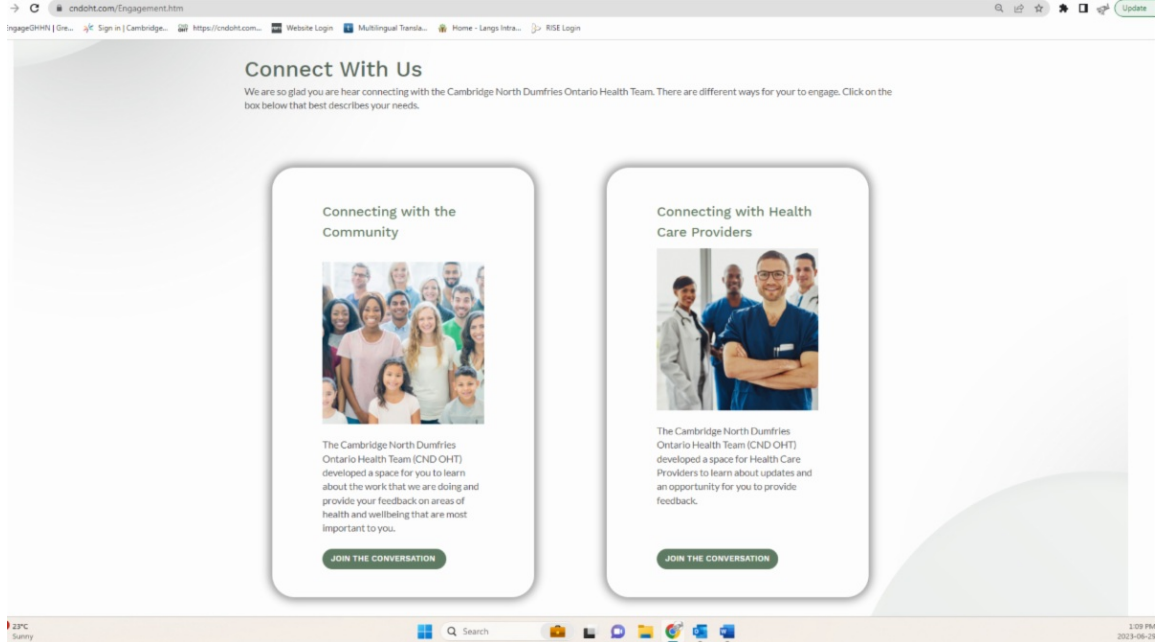

The CND OHT supported Primary Care onboarding of Online Appointment Bookings: 10,000+ online appointments booked to date

From Our Networks

Infection, Prevention & Control (IPAC) Hub

As part of the Ontario Government's COVID-19 action plan, to ensure the safety of our most vulnerable populations, local networks of Infection Prevention and Control (IPAC) expertise were created. This province-wide network was developed to enhance community-based congregate living settings through additional expertise, collaborative assistance, just-in-time advice, and direct support on IPAC practices for both prevention and response.

Our network, the Waterloo-Wellington Hub consists of three satellite Hubs, the (Kitchener-Waterloo-Wellesley-Wilmot-Woolwich) KW4 Hub, (Cambridge-North-Dumfries) CND Hub, and (Wellington-Dufferin-Guelph) WDG Hub. Our hubs have been working closely with regional partners since early 2021 to support the following types of settings:

- Shelters
- Supportive Housing
- Long-Term Care Homes
- Retirement Homes
- Treatment Settings
- Residential Settings funded by the Ministry of Health (MOH)
- Residential Settings for adults and children funded by Ministry of Children Community and Social Services (MCCSS)
- Correctional Facilities

Locally, congregate care settings are supported by both KW4 and CND Hubs as service providers often span both regions. The Hubs' support varies by congregate care setting but services range from IPAC education for staff and visitors and supportive consults, to best practice recommendations and support.

We've utilized our staff's combined years of congregate care experience to build relationships with many leads region-wide, working alongside our leaders to build front-line staff confidence in all areas of IPAC.

To learn more, visit [KW4 CND IPAC HUB](#).

Self Management Program

The Self-Management Programs Network allows patients, caregivers, and healthcare providers to access information about self-management programs in Southwestern Ontario.

Self-management programs are designed to provide you with tools to help you confidently manage your health condition and improve your quality of life, and how to support someone you care about with their health condition. Healthcare providers also have access to workshops that promote working in partnership with patients and caregivers. Programming is free and available for anyone 18 years and older in Southwestern Ontario.

To learn more about programs available and/or to register visit
www.wwselfmanagement.ca.

Southwest Ontario Aboriginal Health Access Centre (SOAHAC) Grand Opening

SOAHAC is thrilled to announce the opening of their new location in Cambridge, which is a great addition to our community. This means expanding services and providing accessible and culturally safe health care to even more individuals and families in the community. Their new location will offer a range of health services, including primary care, mental health, and traditional healing.

To learn more about SOAHAC visit www.soahac.on.ca.
